

Second Annual

Native Plant Landscape Tour

Saturday, September 20, 2008 8:00 am - 12:30 pm (south)

Sunday, September 21, 2008 12:00 pm - 4:00 pm (north)

See what is possible when conventionally landscaped yards are transformed into native plant habitats that are environmentally and wildlife friendly. These yards have reduced or zero lawn areas, use less water, fertilizer and pesticides. The educational and recreational value of watching wild creatures feed, bathe, and reproduce in your own landscape is immense. Talk to the homeowners and learn what inspired them and how they accomplished the creative changes to their yards.

Two tours highlight landscapes throughout Pinellas County. The south county loop features 8 residential yards in St. Petersburg. The north county loop showcases 6 residential yards in East Lake, Palm Harbor, Largo and Seminole.

Pre-Registration will be available 2 weeks prior to the tour at these local nurseries:

Wilcox Nursery: 12501 Indian Rocks Road, Largo, Florida 33774

Twigs & Leaves Nursery: 1013 Dr. Martin Luther King Street S (9th Street S),
St. Petersburg, FL 33705

Nice, Green & Beautiful Landscaping, Inc.: 2001 Bayshore Boulevard, Dunedin,
FL 34698

Registration will also begin 30 minutes before the start of each tour, continuing until one hour after the tour starts. Locations for these registration sites will be available on September 1, 2008

A tour booklet including maps and lists of properties will be provided when you register.

FEE:

\$5/person/tour Non-FNPS Members
Free for FNPS Members
